

# WORRY-FREE, AUTOMATIC SEPTIC MAINTENANCE

## Join Our Member Program For Worry-free Septic Maintenance

Did you know that regular upkeep and maintenance not only protects your property, but your investment? By scheduling regular maintenance for your home or business septic system, you are saving money in the long run and even possibly protecting your health.

Once a septic system is installed, it requires regular care and maintenance to keep it working for years to come.. Regular pumping, and inspection are all part of keeping your septic system functioning. A poorly maintained septic system will quickly turn messy, and costly.

## Automate Your Septic System Maintenance & Protection

**“Out of sight,  
out of mind”**

We know you're busy and it can be easy to forget when it's time to have your septic tank serviced. Our septic protection plan makes it easy to keep your home safe from damage and your family safe from the potential pathogens that enter the home when a poorly managed septic system backs up into the home or yard. Similar to Automatic oil, We will Inspect your Septic tank every year and Pump it every other year. No need to worry about when your due.

Our septic protection plan covers even more!

As a member, you enjoy the peace of mind that comes with knowing your septic system is problem free and taken care of in emergencies. But how do we do that for you?

# Check out these preferred service membership benefits:
